Office Action Summary	Application No. 10/578,448	Applicant(s) NIEUWKERK ET AL.	
	Examiner /JOSHUA L. PRITCHETT/	Art Unit 2872	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 February 2010.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

This action is in response to Amendment filed February 9, 2010. Applicant amended claims 1 and 12 and cancelled claims 3 and 13.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the rotatable polarization mirror and display device must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will

Art Unit: 2872

be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Response to Arguments

Applicant's arguments, see Amendment, filed February 9, 2010, with respect to claim 1 have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn. Applicant amended the claim language to overcome the prior art of record.

Allowable Subject Matter

Claims 1, 4-9, 12 and 14-19 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 12, the prior art of record fails to teach or suggest a polarizing mirror having a first plane reflecting light of a first kind of polarization to a viewing side, the mirror passing light of a second kind of polarization and provided with a display device at its non-viewing side, the display device having a liquid crystal material between two substrates and being next to the first plane, the display device during use provides light of the second kind of polarization, the mirror device having at the non-viewing side a further polarizing mirror and color generation means, wherein the further polarizing mirror is positioned directly between an electro-optical layer of the display device and the color generating means including a backlight

Art Unit: 2872

without any pre-filters therebetween, the polarizing mirror and the display device are rotatable with respect to each other and with respect to an axis substantially perpendicular to the first plane.

Examiner interprets the claim language as requiring both the display device and the polarization mirror to physically rotate not just switch the kind of polarization transmitted through the use of electrical voltage applied to the polarization mirror and the display device.

The remaining claims depend from claims 1 and 12 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

This application is in condition for allowance except for the following formal matters:

The rotatable polarization mirror and display device must be shown in the drawings.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
